EXPERIENCE AND PROYECTS

Dec 2021-Present

Front End Developer in The Guorking Agency
Frontend development with active participation in the design and development side of the websites. E-commerce platforms management and customization (Woocomerce, Shopify, Tiendanube). Content Management Systems (CMS). Wordpress theme customization.

Sep 2021 - Nov 2021

Alkemy's React Acceleration Program
I completed the Alkemy's React Acceleration Program, which consisted in the development of a website and CMS for the ONG "Somos Más". The project was done with a team of eight members and we used agile methodologies (SCRUM), and Jira + Bitbucket for the code management. The project was built with React, Redux, Bootstrap and tested with Jest and React Testing Library. My certificate of completion can be found on my Linkedin page: https://www.linkedin.com/in/mateoleonjacques

2018-Present
